Work done in last week (Attach supporting Documents):

1. Final meeting conducted with the interns who completed their 4-weeks and 6-weeks tenure.

- In the meeting, the interns were shared their progress and also, the areas of their improvements were discussed.
- Letter of Completion was handed to them.
- All the project progress of the intern was assessed.

2. Weekly Project meetings with the manager

- Discussion took place regarding the minor and major project.
- Meeting also focused on finding solution to certain bugs and errors may arise in the future.

3. Completed week-2 and week-3 of the online course named “SQL for Data science”

- The course is on Coursera.
- It is a series of 5 courses that I need to complete before beginning my project.

- The first week was regarding the basics of SQL and how it is used in data science projects.

4. Meeting with the upper management regarding my data science and analytics project.

Project Details:

- Create a classification model to predict the gender (male or female) based on different acoustic parameters

Progress Done:

- The project is completed.

NOTE: The details will be shared in week-6 report after the final evaluation from the upper management.

5. Another project assigned.

- The project is about creating an interactive dashboard for the data provided.
- Also, some sample data will be given on which I need to make the project and then, the real data will be provided upon final nod from the manager,

6. Meeting took place with the manager regarding the extension of my tenure.

- Instead of 3 months, I will be working with the organization for 5 months.

Plans for next week:

1. Completion of Week-4,5 of the online course
2. Review meeting with my manager for my progress and scopes of improvement
3. Initiating the major project assigned to me.
4. Start preparing for the extra concepts that will be required for the project.
5. Make corrections to the minor project if given.
