PW SKILLS UPDATE:

I have started the PW Data science Bootcamp in order to polish my data science skills, upon insistence of my team. I have to submit the daily progress made by me in the bootcamp in terms of assignments.

Till March 17 2023, I have completed the python phase. (Both basic and advance).

Now, I am starting the web scrapping phase. Web scrapping is an essential part of the data collection phase. By doing the web scrapping through python, we are able to generate the data, which can be converted to json format. Afer which, we can easily do the data pre-processing.
